

## Philips MasterColour Integrated 25W PAR 38.

With a simple twist your customer can save time and money by replacing current halogen PAR 38 lamps with this innovative lighting solution. The MasterColour Integrated 25W PAR 38 lamp features an integrated ballast that fits into existing PAR 38 fixtures for an instant retrofit that can save up to 65W per socket! You get truer, quality white light, while also lowering energy, maintenance and replacement costs. Up to 3 times the life of a standard halogen with a rated average life of 10,500 hours.

*Ask your local Westburne representative for more information.*

## Cooper Wiring Devices Tamper Resistant Receptacles

Safety and peace of mind is available now. The TRVGF15W meets the safety and design requirements of the 2008 NEC Code™ for new construction in dwelling units and provides a simple, safe solution to retrofit older homes as well. This tamper resistant receptacle provides a superior solution to protect children from electrical injuries.

*Available in a variety of colours at your nearest Westburne Midwest branch.*

## Environmental Responsibility. Global Warming. What can I do?

All it takes is a simple switch; insist on the **GREEN** endcaps that mark the fluorescent tubes with the lowest mercury content in the marketplace. Philips, uncompromised light quality and life. End every day knowing you have done your part to implement a sustainable environmental solution.

*Popular sizes stocked at all Westburne branches.*

## The Electripro Xenon Task Light

### **New from Electripro**

The Electripro Xenon Task Light is ideal for undercabinet lighting.

Easy to install:

Self contained, aluminum extruded frame with knock out for 120V wiring, high-low dimmer switch, frosted glass diffuser and you can connect up to six in a row. Reduced heat with a 10,000 hour average rated life bulb.

*Stocked at all Westburne locations.*
